

Amateur Radio License in One-Weekend

Ham Radio, also known as Amateur Radio, is a popular hobby and a service which licensed participants operate communications equipment, with a deep appreciation of the radio art. Now you can join this hobby of 700,000 U.S. Ham Radio operators in a one-weekend course conducted by the Intercity Amateur Radio Club (IARC) of Mansfield, OH. No longer is Morse code a requirement for the FCC license. Several other modern communications modes including voice, data, and television are used today. Satellites, the internet, and radios are all part of the hobby now. Join the fabulous, fun hobby of Amateur Radio by registering for a class today.

Technician Class License

Level I Course:

This is the entry-level course designed for anyone with an interest in communicating, learning operating procedures, and new technology. No pre-requisites are required. The course covers operating and communicating with hams, licensing regulations, radio safety, and the very basic fundamentals of radio and electronics. The course concludes Sunday afternoon with the 35-question multiple-choice FCC exam. Five experienced Amateur Radio Extra Class instructors conduct the class and the testing.

November 11 – 13, 2011

Friday 6pm – 9pm
Saturday & Sunday 8am – 5pm

McNaughton-McKay Electric Co.
1733 Nussbaum Parkway
Mansfield, OH 44906

The only cost for the class is the text, *The ARRL Ham Radio License Manual, Second Edition* for \$25. It can be obtained from the IARC (Contacts below) or the ARRL at www.arrl.org.
